Did you know that Friday 5th June is World Environment Day, 2020? It reminds us of how wonderful our planet is. Here's a song which encourages us to think about recycling -

'Recycle it': <https://youtu.be/kxNdivtZLvI> How many things do you recycle?

This is a beautiful, uplifting song, 'What a Wonderful World' which was sung by a very famous singer, Louis Armstrong.

<https://youtu.be/vw3o6GQ2xe8?t=3>

This is such a lovely song to sing along with your family, you could choose a part of it to sing **solo**.

'Playing for Change' was created to connect the world through music; it films musicians in their own

environments around the world. Here is another lovely video of the song which is sung by the

African Children's Choir of Uganda - you can join in with the singing - and the dancing!

<https://youtu.be/ddLd0QRf7Vg?t=2>

Wonderful World

I see trees of green, red roses too,
I see them bloom for me and for you,
And I say to myself, what a wonderful world.
I see skies of blue and clouds of white,
The bright blessed day, the dark sacred night,

And I think to myself, what a wonderful world.

The colours of the rainbow, so pretty in the skies

Are also on the faces of people going by,

I see friends shaking hands saying
How do you do?

They're really saying I love you.

I hear babies cry, I watch them grow,
They'll learn much more than I'll ever know -
And I think to myself, what a wonderful world,

I think to myself... what a wonderful world.

This year, 'World Environment Day' is all about biodiversity which is really about the amazing amount of life we have on Earth - plants and animals. Sadly, our world is being destroyed by so many things, here are just a few...

Plastic Global warming Pollution Forest Wildfires Hunting

Design your own poster promoting World Environment Day and what we can do to save our world. You can learn more from the World Wildlife Fund; you will also find lots of activities to do at home.
